Seismic Survey Design

(Onshore, TZ or Offshore)

Our geophysicists combine elements of all the following and more:

- Geology
- Seismic modelling
- Legacy data & regional experience
- Area scouting
- Seasonal weather conditions
- Contractor capabilities
- Local logistical factors
- Budget and commitments
- Available technology
- 20+ years experience

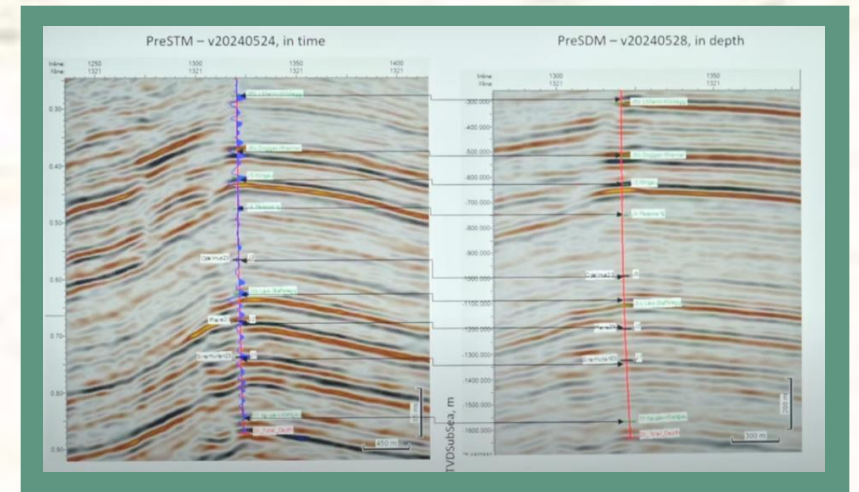

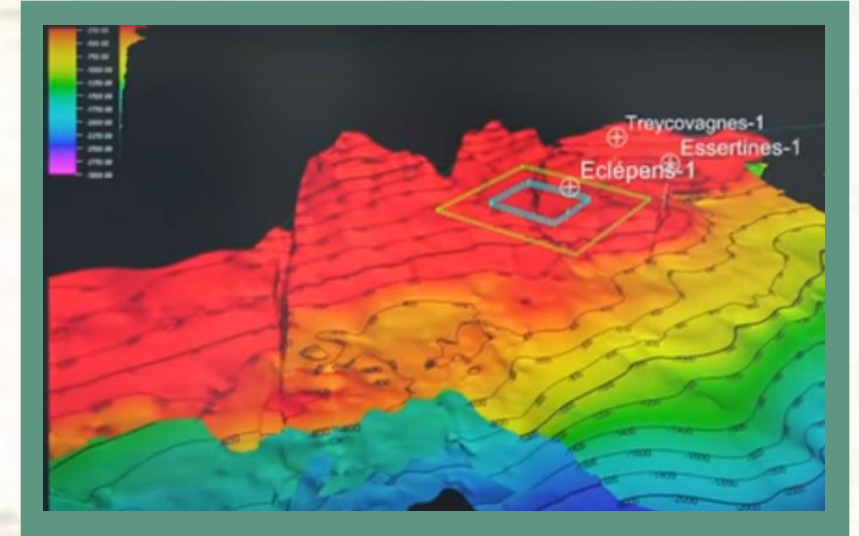

Upstream Consulting

- Lead Maturation Studies
 - Basin - Reservoir Modeling
 - Geophysical Studies
 - Petrophysical Studies
 - Production Technology
 - Economics Modeling
- Coverage**
- Conventional Hydrocarbons
 - Unconventional Hydrocarbons
 - Geothermal
 - Mining

Ad Terra 

Ad Terra Consultancy is the energy consultancy branch of Ad Terra and provides the technical, commercial and strategic insights needed to stay competitive in a rapidly changing energy landscape.

Energy Transition Consulting

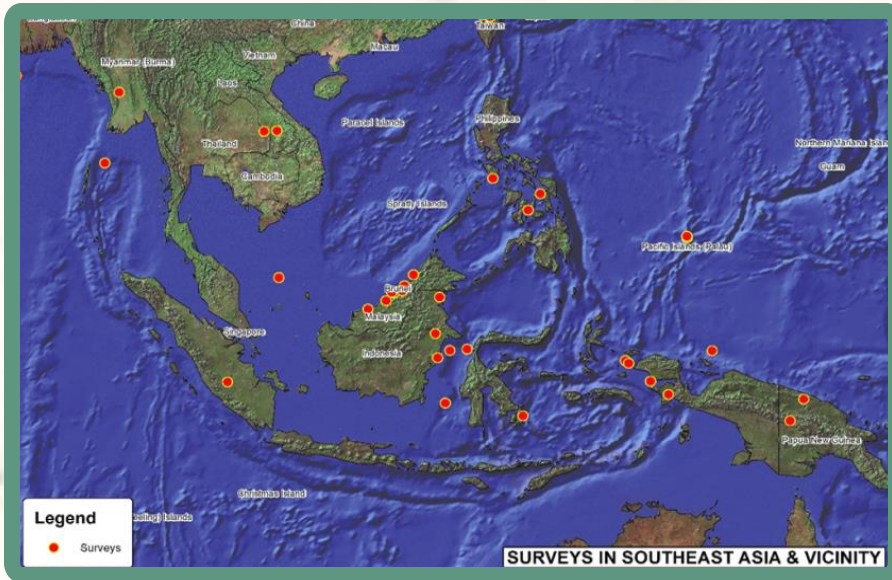

- Geothermal Energy
- Energy Storage
- CCS / CCUS
- Water Resource Management
- Critical Mineral Extraction

Ad Terra 

Ad Terra designs, invests in and operates energy solutions that provide significant environmental benefits and attractive financial returns. Our group drives the energy transition towards a sustainable, low-carbon economy.

Surface Geochemical Surveys

Why Use Geochemical Hydrocarbon Detection Surveys?

- Seeps can be visible (**macroseepage**) or only chemically measurable (**microseepage**).
- Geochemical sampling and analysis provides maps which can be direct **indicators** of hydrocarbons
- Minimal environmental impact
- Remarkably **cost effective**
- Can be used offshore or onshore

E&P Geo)(Field Services

World leader in **Surface Geochemical Surveys**. Have conducted surveys in Indonesia with OPAC since 2008.

Surface Geochemical Services

- Hydrocarbon Microseepage
- Survey Design
- Microbial Technique
- Acid Extracted Soil Gas
- Soil Gas
- Headspace Gas Analysis

Well & Drilling Consultancy

- Well & Completion Design
- Well Assurance
- Well Integrity Management System
- Well Performance Modeling
- HPHT
- Decommissioning & Abandonment
- Expert Witness

NRG Group is an Independent **Well and Drilling consultancy** with extensive UKCS and International experience.

Reservoir Engineering

- Fluid Sampling Program & Laboratory Design
- EOS Model Development / Black Oil Table Generation
- Black Oil and Compositional Reservoir Simulation
- Gas EOR Modelling – both for Unconventional and Conventional
- Well Performance & History Matching – both for Unconventional and Conventional
- Modeling of Gas Injection at Lab and Core-scale

SMS Integrity Sand Management

Established nearly 20 years ago, SMS is now a global leader in sand management, with experience across **22 countries** and **over 30 operators** served.

Deployed >10,000 sensors worldwide with conspicuous success in harsh & remote operating environments.

Case-studies available on: subsea corrosion system, real-time sizing of sand particles & H₂S profiling in HPHT wells.

Key Services:

- **Sand Management Consultancy**

Strategic advisory to address root causes of sand production and improve operational performance both downhole and in surface facilities.

- **Sand Monitoring & Sampling**

Acoustic sand detection, inline particle-size analyzers, intrusive sand & corrosion probes.

- **Erosion & Corrosion Monitoring**

Real-time probes and wall-thickness measurements to detect metal loss proactively.

- **Gas Monitoring**

Real-time H₂S and multi-gas analyzers for safe gas profiling around live operations.

- **Metering Solutions**

Portable clamp-on UT flowmeters for accurate flow measurement across environments, including solids-laden streams.

- **Sampling & Injection Solutions**

Full-spectrum services including rental, maintenance, and consultancy for fluid sampling systems.

Asset Performance & Risk Management

Vysus Group is a leading engineering and technical consultancy offering specialist asset performance, risk management and project management expertise across complex industrial assets, energy assets (oil and gas, nuclear, renewables) and the energy transition.

20%

Improve availability and uptime by 20%.

40%

Reduce operating costs by 40%.

Services:

- Maintenance & Reliability
- Operation Readiness Assessment
- HAZID & HAZOP Studies
- Computational Fluid Dynamics (CFD)
- Failure modes and effects and criticality analysis (FMECA)
- Human Factor in Engineering

Manpower Services

OPAC's combination of favorable indicators:

- Experienced management
- Low debt, solid cash position
- Proven capability to deal profitably with nationalization trends in staffing and technical base
- Certified **ISO 9001, ISO 14001, & ISO 45001**
